

# SayIt™ FOR YOUR VET CLINIC

Save 25% or more documentation time everyday with SayIt™ - the speech recognition solution for vets!

Abdominal radiograph shows a large, oval mineral radiopacity object in caudal abdomen, consistent with a urolith. Shiloh was prescribed Rimadyl® while the owner decided on further care.

Where would you rather spend your time, Typing or Treating?

No-brainer, right? But, how? With SayIt™ — the accurate and affordable speech recognition solution for vets.

**See for yourself why SayIt is a no brainer for your veterinary practice.**

SayIt™ speech recognition from nVoq can help you save 25% or more documentation time each day! Just point your cursor to where you'd normally type and "SayIt". Your speech becomes text in seconds – stored right in the system of record. Even drug names and veterinary terms.

**SayIt is more accurate, flexible and less costly than competitors!**

- SayIt works anywhere there's an Internet connection.
- SayIt is cloud-based, you don't have to install any software! No IT experts required.
- Use with your Mac AND your PC — use your iPhone for a wireless mic!
- Try before you buy, pay as you go. No-obligation trials available.

SayIt from nVoq is a cloud-based speech recognition solution that makes clinical documentation less painful. Real time dictation accurately converts the spoken word to text in seconds. SayIt is hosted securely in a U.S. data center and supports veterinary specialties.

**With no-risk trials and affordable subscription pricing, see for yourself the difference SayIt can make in your practice.**

SMP4000

## Desktop dictation goes mobile

with patented lossless speech technology

The SpeechMike Premium has reached its highest stage of evolution. Benefit from all advantages of the industry leading dictation microphone, without the constraints of a cable. Record your voice using a premium decoupled studio-quality microphone with a built-in noise reduction filter and achieve exceptional speech recognition results. Thanks to the revolutionary patented lossless speech technology, the SpeechMike Premium Air offers maximum mobility without any compromises. The device achieves the same high speech recognition performance as the standard SpeechMike Premium with a cable.

#### Exceptional recording results

- Studio-quality microphone for best-in-class speech recognition results
- Decoupled free-floating microphone for precise recordings without background noise
- Integrated motion sensor mutes microphone when not in use

#### Wireless for maximum mobility

- Patented 100% lossless speech technology for smooth wireless voice recording
- Superior docking station for high-speed wireless charging and smart pairing
- Long-lasting battery for up to 24 hours of reliable recording time

#### Designed for convenience

- Freely configurable buttons and modes for a personalized device
- Wear-free slide switch and push buttons for comfortable operation
- Antimicrobial housing and buttons for durable hygienic working

#### Developed for professionals

- Superior touch sensor for integrated mouse function
- Hands-free recording for comfortable working
- Smart, backwards compatible firmware for extra flexibility
