

TouchView Mobile Apps

Salient Systems offers mobile apps for the iPod® touch/ iPhone®/iPad® and Android™ smartphones. Bring your video viewing and playback experience along with you wherever you go. TouchView™ Mobile combines the power of Salient's CompleteView™ video management system with the freedom of mobile access to live video, recorded video and PTZ camera control from a powerful, fully integrated interface.

Users can instantly access, monitor and review live and recorded video from any camera connected to any CompleteView recording server in the system. And, cameras from multiple servers can be accessed simultaneously with PTZ control. CompleteView's powerful Dynamic Resolution Scaling automatically sizes the video for live viewing, significantly reducing network usage and providing higher frame rates over mobile connections.

FEATURES

- Seamless integration with Salient Systems' CompleteView VMS
- Full interaction with CompleteView live video and recordings
- Utilizes CompleteView's Dynamic Resolution Scaling providing optimized video transmission over slow connections
- Incorporates analog, IP, megapixel, and HD video available from CompleteView
- On-screen PTZ camera controls
- Built in support for analog cameras, IP cameras and encoders
- Advanced playback capability, including scrub bar control
- Customizable view layouts
