Speech Recognition Pathology Solutions

Dolbey is helping to enhance the way Pathology professionals create clinical documentation. Organizations using Fusion speech recognition solutions are improving medical collaboration and patient care.

The Fusion Suite™

DOLBEY
— SINCE 1914 —

Fusion SpeechEMR for Pathology

Named Best in KLAS or KLAS Category Leader for Speech Recognition Categories in 2012, 2013, 2014, 2015/2016 & 2018

Dolbey, a world leader in clinical documentation solutions, delivers a comprehensive, speech-enabled reporting solution for anatomic pathology labs. Dolbey's, Best in KLAS, Fusion Speech solution uses a patented pathology-specific context to maximize speech recognition accuracy.

Fusion Speech provides flexible options for every pathology professional, users can choose between front-end or back-end speech recognition and traditional transcription workflows.

Fusion Speech for Pathology is designed to integrate with all major LIS and Digital Pathology systems without the need for interfaces.

Dolbey's award winning speech recognition for Pathology is reducing transcription costs and report turnaround times while increasing the quality of patient documentation and care.

Dolbey's Award Winning Speech Recognition Solutions Fusion Speech®, Fusion Expert® and Fusion SpeechEMR® are powered by SpeechMagic™
