Rugged Telemedicine Kits

The Rugged telemedicine kit (RTK) is an essential element in providing telemedicine services. This versatile kit can accommodate the equipment necessary to service patients anywhere you intend to go. Our RTK offers a way to expand your telemedicine program beyond the walls of your facility.

Large Rugged Telemedicine Kit

Medium Rugged Telemedicine Kit

Compact Rugged Telemedicine Kit

Medium and Large RTK Features

- Two size options to best fit your specific needs
- IP67-rated rugged case
- Integrated I/O panel
 - Power on/off
 - Four USB 3.0 ports
 - Audio in and out ports
 - RJ45 Ethernet port
- Integrated speakerphone
- Integrated high-definition web camera on manually articulating arm
- Rugged fold-out keyboard with negative and positive tilt adjustment options
- AC Power cord
- Integrated Battery and battery status indicator
- Tilt adjustment for tablet computing device to accommodate multiple viewing angles. Support for Microsoft Surface Pro or Getac F110 Tablet
- Support for optional Cradlepoint LTE modem
- Custom foam insert to support multiple peripheral devices, including:
 - Multipurpose exam camera with removable lenses
 - General exam cameras
 - Otoscopes
 - Stethoscope
 - Ear bud Headphones
 - Ultrasound probe
 - ECG with leads
 - Vital Signs Monitor with attachments (large RTK only)

Note, not all devices may be configured simultaneously. The type and quantity of devices supported may vary based on devices and size of kit selected.

Compact RTK Features

- IP67-rated rugged case
- Integrated USB hub with 3 available ports for peripheral devices
- Rugged fold-out keyboard
- Support for Microsoft Surface Pro tablet
- Custom foam insert to support limited number of peripheral devices, including:
 - Exam camera
 - Stethoscope
 - Ear bud headphones

Note, compatibility of peripheral devices is limited to the available power output from the Surface Pro tablet. The type and quantity of devices supported may vary based on devices selected.

Soft Telemedicine Kit

The Soft Telemedicine Kit is designed for mobile telehealth applications to improve the level of care in a variety of use case settings. Our light weight, non-powered soft kit provides your facility with a simple and effective approach, allowing you to configure your telemedicine kit for in home care or physician consultation. We incorporate high density foam inserts to securely house your chosen technology or diagnostic devices and offer multiple storage pockets to accommodate multiple configurations.

Telehealth Shoulder Bag

Telehealth Shoulder Bag Features

- Lightweight duffel bag style portable kit
- Dedicated laptop pocket
- Custom foam insert to support a limited number of peripheral devices, including:
 - Compact spot vital signs monitor with peripherals
 - Multipurpose exam camera
 - USB Stethoscope
- Additional storage pockets for peripherals such as:
 - Headphones
 - Speakerphone
 - Webcam with tripod
 - Cradlepoint modem
 - Lenses for exam camera
 - Device charging and power cables
 - USB hub

Note, the type and quantity of devices supported may vary based on the devices and the configured of the computing device selected.

Wall-Mounted Cabinets

Perfectly designed for form and function, wall-mounted computer cabinets in patient rooms are ideal for utilizing telehealth solutions. They contribute to a more secure environment in which patients can interact with off-site providers and discuss sensitive information. Additionally, wall-mounted computer cabinets provide a suitable way for patients to view educational content privately.

Telehealth Cabinet

Wall-Mounted Telehealth Cabinet Features

- Modular compartment options for multiple configuration options
 - Open-face LCD module, supports up to 24" LCD or AIO computer
 - Fold-out keyboard tray module with auto-retracting gas springs
 - Universal storage module - can select multiple modules for uSFF computer or peripheral devices
- 4" cabinet depth
- Supports a variety of PTZ cameras
- Support both hardware and software-based video conferencing solutions
- Custom foam insert for storage module with support for limited peripheral devices, including:
 - Multipurpose exam camera with removable lenses
 - Stethoscope
 - Headphones
 - Ultrasound probe

Note, not all devices may be configured simultaneously. The type and quantity of devices supported may vary based on devices selected.

Telehealth Kiosks

Howard's multipurpose Telemedicine Kiosks are ideal in standalone or physician assisted tele-visits. We offer unique mounting options to support accessories in order to perform the highest level of clinical care.

NEEDS ASSESSMENT

Identify your goals; what are you looking to gain from implementing a telemedicine program?
Identifying what you hope to gain from investing in a telemedicine program will help identify the right solutions.

BEST-IN-CLASS COMMUNICATION PLATFORM

A secure and reliable cloud-based connection between patient and provider eliminates distance barriers. A real time, face-to-face visit facilitates a high-quality, HIPAA compliant patient to provider experience.

SUPPORT

When you need support, you need it immediately.
On-demand, United States-based support available 24 hours a day, 7 days a week.

VoiceProducts

TELEMEDICINE • SPEECH • WOUND CARE

I WANT TO PRACTICE

TELEMEDICINE,

what is involved?

*Voice Products can help your organization develop a customized, effective telemedicine program that benefits your staff and the patients you serve. Voice Products is proud to be a GSA approved vendor.
Visit www.voiceproducts.com for more information.*

TRAINING

Understand and maximize the technology utilized to serve your patients.
A thorough training program is critical to a successful implementation for both provider and patient.

WEB DEVELOPMENT

The quality and functionality of your website directly impact your ability to communicate and automate information and services to patients. Security and HIPAA compliance are key components of implementing a telemedicine program.

MEDICAL DEVICES & EQUIPMENT

The devices and equipment you will need depend on the specialties you plan to serve. Solutions range from something as simple as pre-configured tablets to telemedicine carts/kiosks with over 42 attachments.

EXECUTIVE SUMMARY

Voice Products, Inc. started in June 1990 and has been selling and servicing healthcare products in the United States ever since. Voice Products is the largest distributor of Speech Recognition, Dictation/Transcription systems in the Midwest and we have more installations than any other reseller. We specialize in voice and video, speech recognition, computer assisted coding, telemedicine, revenue cycle management and wound care programs.

Voice Products is a Sub S Corporation based in Kansas and we're one of five sister corporations, one of which is an insurance company.

We pride ourselves on our customer service and have more service personnel than any reseller in the Midwest. Our phone is answered by a human operator 24 hours a day, 7 days a week and 90% of the time you can talk directly to an engineer when you call.

Voice Products has the highest rating with Dun & Bradstreet and has been debt free for over a decade. We also have seen over 10% growth per year throughout the 30 years in business. Today with assets in the millions of dollars and more than 5,000 Customers, Voice Products is positioned to lead its industry.

Voice Products, Inc. has more than 60 employees, and currently holds a General Services Administration (GSA) contract, Texas Class B License, a DIR (Texas Department of Information Resources) contract, and an HGAC (Houston-Galveston Area) contract. We are an endorsed partner with the Texas Organization of Rural & Community Hospitals (TORCH), as well as a vendor for some of the largest hospitals in the United States.

Voice Products, Inc. was recognized with the Wichita Business Journal *Best in Business Award* as one of the Top 15 Businesses in Kansas for the last twelve years : 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018 and 2019, competing with several international companies. Just recently, we have been recognized by INC Magazine as an INC 5000 Fastest Growing Companies in the U.S., for the second year in a row.

Voice Products, Inc. believes in being involved in the community and supporting charities that benefit our community by contributing both personal time and monetary donations. The organizations that we have donated to or been involved with are Muscular Dystrophy Association, Cystic Fibrosis, Child Advocacy Center of Sedgwick County, American Heart Association, Wichita YMCA Strong Kids, Via Christi Foundation, Hurricane IKE Relief, Euless, Texas Police Dept. Charity, Greensburg Hospital, Wichita Children's Home, Rice Community Healthcare Foundation, Olathe Charity Classic, Presbyterian Health Foundation, Integris SW Foundation, Oklahoma Hospital Research, Missouri Police Chiefs Charity Foundation, Friends of McConnell AFB and Wounded Warriors Project. Voice Products is proud to be the sponsor of the Kansas Chiefs of Police Valor Golf Tournament.
