

NEEDS ASSESSMENT

Identify your goals; what are you looking to gain from implementing a telemedicine program?
Identifying what you hope to gain from investing in a telemedicine program will help identify the right solutions.

SUPPORT

When you need support, you need it immediately.
On-demand, United States-based support available 24 hours a day, 7 days a week.

BEST-IN-CLASS COMMUNICATION PLATFORM

A secure and reliable cloud-based connection between patient and provider eliminates distance barriers. A real time, face-to-face visit facilitates a high-quality, HIPAA compliant patient to provider experience.

I WANT TO PRACTICE TELEMEDICINE, what is involved?

*Voice Products can help your organization develop a customized, effective telemedicine program that benefits your staff and the patients you serve. Voice Products is proud to be a GSA approved vendor.
Visit www.voiceproducts.com for more information.*

TRAINING

Understand and maximize the technology utilized to serve your patients.
A thorough training program is critical to a successful implementation for both provider and patient.

WEB DEVELOPMENT

The quality and functionality of your website directly impact your ability to communicate and automate information and services to patients. Security and HIPAA compliance are key components of implementing a telemedicine program.

MEDICAL DEVICES & EQUIPMENT

The devices and equipment you will need depend on the specialties you plan to serve. Solutions range from something as simple as pre-configured tablets to telemedicine carts/kiosks with over 42 attachments.

NEEDS ASSESSMENT

Our experienced team asks the right questions to understand your unique business and objectives. We utilize a thorough needs-based assessment to suggest the best products and solutions to fit your goals and objectives. Our culture emphasizes the value of creating lasting relationships with our clients, where we continue to grow together.

BEST-IN-CLASS COMMUNICATION PLATFORM

Our SecureVideo based communication platform facilitates more than four-million minutes of HIPAA compliant telehealth sessions each month. Using three redundant servers throughout the United States, the cloud based platform keeps your information secure.

Applying brick-and-mortar functionality and needs with a seamless, easy to use interface, the platform is user-friendly, HIPAA compliant, and reliable.

MEDICAL DEVICES & EQUIPMENT

From solutions as simple as pre-configured tablets, to our exclusive med carts and kiosks with the ability to integrate over 42 attachments ranging from EKG, ultrasound, and blood pressure to Tele-Stroke and PulseOX. Analytics are pushed live through the virtual clinic interface and can be shared with any provider, on any device, anywhere in the world.

Our kiosks have been used in hospitals, assisted living facilities, prisons, rural community centers, and disaster relief zones.

We offer turnkey solutions built to your needs and specifications.

WEB DEVELOPMENT

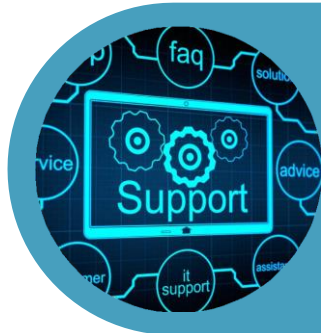

We have developed and integrated some of the nation's most reliable videoconferencing and telemedicine software suites and websites in the market. Our team of developers are experts in encryption and security, have years of experience in website development, HIPAA compliant websites, patient and provider portals, content management, e-commerce, and web apps, along with API integration into a host of EMR/EHR platforms and medical devices.

TRAINING

Voice Products provides thorough training to maximize the effectiveness of our suite of products and services. Our training ranges from use of software and hardware to on-site setup and group training. We have the ability to create State License Certification Programs, Continuing Education Unit Programs, and customized telemedicine training programs to fit your specific use case.

SUPPORT

Our support team is trained to assist with a broad scope of issues, ranging from a simple provider dashboard to a complex API integration into your own healthcare portals.
