

Cloud-based speech recognition that just works.

Productivity that's off the charts.

Save IT overhead while providers save 25% or more charting time!

“

If it's deployed and I don't get calls on it, it's the best product ever.

”

— IT Director - Regional Hospital

If you've been underwhelmed by the cost, reliability, and complexity of other speech recognition solutions, consider SayIt™. SayIt offers affordable pricing, unrivaled uptime, AND unparalleled ease of implementation.

Why SayIt? SayIt is incredibly easy to deploy, easy to train, easy to use, and easy to manage – we've even been called “IT's Best Friend.” SayIt is compatible with all major EHRs – no integration required!

SAYIT ADVANTAGES:

Easy, Affordable, Portable, and Friendly:

- SayIt is simple to learn and use: Most providers are productive using SayIt within 30 minutes of being trained.
- With flexible, low cost subscription pricing, SayIt is designed to be affordable for the entire healthcare community.
- Securely hosted in US and Canadian data centers in compliance with HIPAA and other regional standards.
- One SayIt account works well for both PC and Mac – no need to buy two products!
- SayIt supports all major medical specialties and can be quickly customized with tailored acronyms and taxonomies.
- SayIt also offers a free Wireless Mic app for iPhone or Android.

Reduce Documentation Time and Effort:

- Reduce errors while entering data at 3-4X the speed of typing!
- Improve consistency of clinical documentation by creating detailed narratives quickly and accurately— directly into the system of record!
- Use voice or touch shortcuts to activate EHR macros, insert templates, and navigate system screens.

Optimize your Workflow:

- Complete templates and reports in seconds vs. minutes – using simple voice or touch commands.
- Prefer to have someone else edit your work? With the optional SayIt Transcription Assist service, dictations are edited and posted directly into the system of record.
- Additional computer-assisted coding, documentation and full service transcription capabilities are available through certified SayIt resellers.

Desktop dictation goes mobile

with patented lossless speech technology

The SpeechMike Premium has reached its highest stage of evolution. Benefit from all advantages of the industry leading dictation microphone, without the constraints of a cable. Record your voice using a premium decoupled studio-quality microphone with a built-in noise reduction filter and achieve exceptional speech recognition results. Thanks to the revolutionary patented lossless speech technology, the SpeechMike Premium Air offers maximum mobility without any compromises. The device achieves the same high speech recognition performance as the standard SpeechMike Premium with a cable.

Exceptional recording results

- Studio-quality microphone for best-in-class speech recognition results
- Decoupled free-floating microphone for precise recordings without background noise
- Integrated motion sensor mutes microphone when not in use

Wireless for maximum mobility

- Patented 100% lossless speech technology for smooth wireless voice recording
- Superior docking station for high-speed wireless charging and smart pairing
- Long-lasting battery for up to 24 hours of reliable recording time

Designed for convenience

- Freely configurable buttons and modes for a personalized device
- Wear-free slide switch and push buttons for comfortable operation
- Antimicrobial housing and buttons for durable hygienic working

Developed for professionals

- Superior touch sensor for integrated mouse function
- Hands-free recording for comfortable working
- Smart, backwards compatible firmware for extra flexibility
