

Fusion Narrate CAPD

Fusion Narrate[®] powered by nVoq[™]

Streamline documentation and increase productivity.

Achieve tangible outcomes and improve patient care with Dolbey's Computer-Assisted Physician Documentation solution.

Transform your workflow by delivering real-time information relevant to the patient's visit during report creation with Fusion Narrate CAPD[™] powered by Artificial Intelligence. Integrated with Dolbey's cloud-based speech recognition software, the Fusion Narrate CAPD solution ensures patient records equate to actionable information, accelerating coding with fewer retrospective inquiries while improving patient care with an accurate and complete report.

You should not have to choose between quality documentation and patient care. By adding Dolbey's natural language processing technology into your workflow, you can streamline documentation with less interruptions to deliver the best care possible. Experience decreased turnarounds, enhanced clinical decision-making and improved quality of care with the reliability and innovation only Dolbey can provide.
